RE: GREAT SERVICE AND WORKMANSHIP.

Dear Sirs

Your company build a new Garden Cottage for me and my wife at my son's residence at 16 Donald Street, Brackenhurst, Alberton, during July and August 2007.

I must congratulate your company on the professionalism and care you took with this project. The whole experience, from start to finish, was a pleasant one. I want to mention Moses and Jan in particular. They were, always professional and courteous, always willing to listen and friendly. **They went the extra mile!!**

My son's property was always neat and tidy, the worker friendly and took our constant peaking into the cottage with a smile and pride. There was not a day's delay and everything panned out according to schedule.

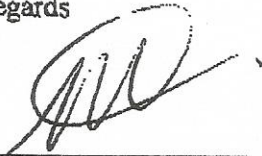

As this was me and my wife's first experience with builders, we were pleasantly surprised. With all the stories out there about builders and contractors that seems to be in it for the quick buck we can only say - **BRAVO!!! WELL DONE!!!**

Thank you to all the staff at Manhattan.

Keep up the good work and be sure I will always recommend your company.

Please feel free to use our Cottage as a show piece if you wish to show prospective clients your workmanship.

Kind Regards

Mr. PJJ Bouwer
